

Translations

Interpreting

DTP

We use the international marketing criteria and the customer management applied to linguistic communication. Our main quality features include competence, moderate prices and time saving. Each service is a combination of the commitment by the professional collaborators who are coordinated by a team of language and marketing experts: this guarantees an efficient control on every working phase and represents a useful and convenient filter between the client and the final performers. The result is a turn-key service aimed at the international market.

Italian, English, French, Spanish, German, Portuguese, Chinese, Japanese, Korean, Arabic, Persian, Dutch, Swedish, Finnish, Danish, Norwegian, Icelandic, Polish, Bulgarian, Hungarian, Slovenian, Serbo-Croatian, Romanian, Greek, Albanian, Russian, Ukrainian.

Our services include

Translation & Interpretation work in more than 25 languages

Technical translations for specialized documents such as medical, legal, publishing, industrial, commercial, information technology, mechanical and construction

Proofreading

Cross checking the source document with the translated document. Our proofreaders check translated documents to ensure an accurate and understandable rendering of the source document in the target language

Asseverations

Transforming a text translated into an official document. The translator swears before the court that the translation complies with the original document

Localizations

Adapting the language and the linguistic register to the audience or to the market that the text to be translated is addressed to. A very deep knowledge of the culture and habits and traditions of the country of destination is necessary

Editorial Consultation

Pre-printing services, editing, lay-out, graphic design, book on demand

Advantages

Professional consultation

In house and network staff, specialized collaborators directed by sector experts suggest the most suitable solutions to satisfy the customer's request
