**Linguists**

EALS/TP boost over 100 linguists across Africa, at least two native linguists for every language we offer.

We demand three basic requirements from our linguists:

- Be native speakers;
- Proven intellect of foreign languages, mostly English as a foreign language; and
- Extensive scope of knowledge of the industries we specialize in.

All of their qualifications and capabilities have been carefully analyzed and chosen from a number of applicants by our rigorous examination. They all have a minimum of three years translating experience in their native language, and hold at least a diploma in translation or foreign languages studies.

We maintain the same high standards of qualification assessment, recruitment and training for all our freelance translators.
