About Me

I have always had an interest in languages. My request to pick French in school was denied, I was made to study Latin instead. I had a hard time until I understood that reverse-engineering generative grammar won't help with a natural language & why my middle school teacher didn't understand my questions. I learnt French on the side on my own. I believed that I wasn't good with languages, but this ended in 2020, I started to teach myself Spanish and Catalan simultaneously. **In less than one year I reached level B1 in ES & CAT on my own** and kept learning. I began a deep dive into Catalan language at two universities in 2020. I am studying Linguistics, History of Romance Languages, Learning Sciences & Pedagogy as an autodidact. Other than this I am a **musician & an artist** as well as a **Linux Sysadmin, IT Technician and Network Engineer**.
