

# Thomas Kisob

Video Captioning AI Data Trainer

## Profile

With a Master's degree in Law, proficiency in both English and French, and a profound passion for writing and cinema, I am excited about the opportunity to contribute to your innovative team.

My academic journey has honed my analytical and critical thinking skills, essential for understanding and creating accurate video captions. During my Master's program, I developed a keen eye for detail and an appreciation for the nuances of language, both of which are crucial for high-quality captioning. My legal education also instilled in me a disciplined approach to research and documentation, ensuring that I deliver precise and reliable work.

Fluency in English and French has not only broadened my linguistic abilities but also my cultural understanding. This bilingual proficiency allows me to create captions that are not only accurate but also culturally sensitive and relevant, catering to diverse audiences.

My love for writing and cinema is deeply ingrained in my daily life. I actively maintain a blog where I explore and communicate my observations of society, often through the lens of films and other media. This hobby has sharpened my ability to convey complex ideas clearly and engagingly, skills that are directly applicable to the task of video captioning. My blog writing experience demonstrates my capability to communicate effectively, ensuring that the content is accessible and engaging for all viewers.

The role of AI Image annotator at Invisible Technologies aligns perfectly with my skills and interests. I am enthusiastic about the opportunity to combine my legal background, linguistic proficiency, and passion for writing and cinema to contribute to your mission of enhancing video accessibility. I am confident that my unique blend of skills and experiences will enable me to excel in this role and make a meaningful impact on your team.
